## The Mysteries of Reality Creation

### Rev. Cherie Larkin

A complaint is often heard that Christianity and the sacred passages of scripture have become irrelevant and obsolete in our technologically advanced world, a world with instruments that can see at once to the end of the universe and deep into the subatomic fabric of reality. However, when the true depths of the parable lessons offered by Jesus are unlocked and seen for what they really are, it becomes immediately obvious that their truths easily encompass even the most advanced concepts of our modern quantum world. The greatest quantum mysteries involve how the human mind can actually influence the way matter and energy behave at the subatomic level. The parables reveal these quantum mysteries and how they can actually be applied in useful ways to solve real problems in the real world.

Whenever Jesus lapsed into the parable mode, he did so specifically to illustrate one of the great principles governing the mysteries of reality creation. He wanted us to know what he knew. And he wanted us to know precisely how to do “even greater things.” When he shared one of his pithy stories, he was really trying to tell us how to

use our own minds and hearts to generate better states of supply, better states of health, better lives for ourselves, those we love, and for our world.

A study of the parables invites you to journey into the classic initiations and core “secrets” of the mysteries of reality creation. The study will activate your innate and God-given abilities to heal disease, to manifest more abundant life, and even to know and communicate with divine intelligence. It will awaken your ability to accomplish miraculous things you cannot, in your current state of consciousness, even begin to imagine.

Our New Year series, *The Mysteries of Reality Creation* will show you how to use the incredibly powerful parables to remodel your life and circumstances in dramatic and extraordinarily effective ways. If you follow the path they illuminate for you, you will, in due course, find yourself in a world of beauty, truth, healing, and joy, the likes of which you have never before imagined. Join us at 10:00am on Sundays at Unity of Auburn.

### **The Joys of Leadership**

If you had told me ten years ago that I would one day be president of the Board of Trustees of Unity of Auburn, I would have laughed – then felt a knot of fear in my gut. The truth is, I have always considered myself to be a follower or, at best, a team player. Being the leader of anything (save for childhood games) was way out of my comfort zone.

I never expected to learn through my three years serving as President of the Board of Trustees of Unity of Auburn that being out of my comfort zone would be precisely what I needed to continue growing and evolving on my spiritual journey. I have had so many opportunities to hone my listening skills, to keep my mind and heart open during difficult or sensitive discussions with others, to see things from other people's perspectives enabling me to be more compassionate, to be brave in expressing an alternate viewpoint, and to see and appreciate the gifts and talents of others through the lens of love and gratitude. I now know which leadership skills and traits I value and why people with these skills and traits inspire me.

It has been an honor and an unexpected joy to serve as president of the Board. I have had the incredible privilege of working alongside others whose strength, wisdom, commitment, determination, insightfulness, courage, and calm continually amaze me. I am deeply grateful for the support and encouragement I have received from my fellow Board members, past and present.

I also appreciate the love, support, and encouragement I have received from the congregants of Unity of Auburn. Your kindness, positivity, enthusiasm, and welcoming attitude are what make our spiritual community so wonderful.

May the coming year bring you all peace, love, joy, prosperity and many, many magical moments.

*Board President Patty Davis*
