As we are concluding our Sunday series, Building a Prosperity Mindset, I want to remind us that the Substance of God that we have been discussing is actually God. It is important to never separate Substance and God, but to always remember that Substance is alive, creative energy and is forever moving into the forms you shape with your mind.

My friend and minister, the Rev. John Adams shared 20 Substance Reminders in his book, *The Secret of Multiplied Money*. Here are a few of them to help you stay in a realization that God and Substance are one and as you work in cooperation with Substance you build prosperity into your life.

1. All that appears is made from one Universal Substance.
2. Substance is intelligent; it thinks' it is alive and is Life Itself.
3. Faith or thought activity activates Substance. By impressing your thought upon Substance, the form of your thought is manifested.
4. You live in a friendly Universe of all-providing Substance of which you may have all you can use.

5. You do not need to pray for more Substance; you have all of it now! Pray for an expanded consciousness of Substance and for the ability to receive more.

6. Be absolutely clear on what you want. Spiritual Substance is pliable. You mold and shape it with you mind and imagination and it responds best to clear mental images.

7. Always let your vision be upon limitless Spiritual Substance, never on visible supply. Although you do not actually see Spiritual Substance with your physical eyes, you do "see it" with your faith and imagination.

8. Look to and depend solely on Substance and you will be unaffected by recessions, hard times, or negative conditions.

9. Whatever you desire, that is God desiring to express more fully in and through you. It is the natural expression of Substance taking the form and shape of your desire.

### “THE POWER OF REPETITION”

by Anne Roberts, Unity of Auburn- June 2024

Because of the way we ‘put together’ our powers of thought, words, belief and focus... consciously or unconsciously with the power of repetition, we are able to learn, as well as accomplish great things. Repetition goes on around the world continuously and constantly. Things are repeated all the time through digital signs, television, telephones, billboards, radio and digital music streams; pretty much everything; while we are in the middle surrounded by or addicted to the technology around us, it makes hearing yourself repeat things... difficult.

Nothing is more powerful than our power of repetition. Because of its simplicity, conscious and unconscious use, repetition goes unrecognized as a God-given power.

We can think of the power of repetition as the power of persistence as its meaning. Repetition works like an unstoppable generator energizing words, thoughts, and imagination until whatever is being repeated takes form or becomes a situation.

Repetition is required for success in everything. Repetition is how we train, retrain, learn or unlearn all things. Repetition results in demonstration.

What about the words and phrases we unconsciously repeat? We can easily become aware of the words we are repeating by being able to take an honest look at the experiences taking place in our lives. I have asked my sister to tell me what I am repeating, which helped when I was not emotionally attached.

Repetition is used for good, it’s opposite or as an indicator of one’s mental/emotional health.

Listen to people. They repeat things good or bad all the time. Pay attention to the things they are asking for without ever considering the power of their words or ever hearing themselves. Things like headaches, bad knees, and many disabilities are claimed during general conversation.

All we can do... is to learn to listen to ourselves, understand how to use your power of repetition and use it to your advantage.
